

## CV/Portfolio of Mirza Mohibul Hasan

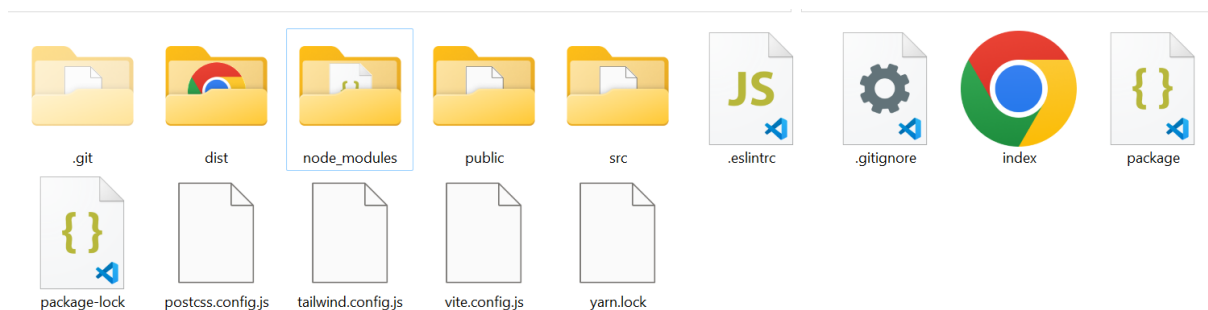

Live Website: <https://mohibulhasanrefat.netlify.app/>

This CV/Portfolio project is made with ReactJS and TailwindCSS. To run this project you have to follow the following steps

**Step-01:** Here you need to open the folder

Name	Date modified	Type
 portfolio	7/18/2023 10:51 AM	File folder

**Step-02:** Open the folder

**Step-03:** open the folder in terminal

```
Command Prompt
Microsoft Windows [Version 10.0.22621.1992]
(c) Microsoft Corporation. All rights reserved.

G:\CSE-3-1\Web Development Lab\portfolio>
```

**Step-04:** In terminal write "npm run dev"

```
G:\CSE-3-1\Web Development Lab\portfolio>npm run dev
```

Then you will find this type of interface in the terminal. So, now if you go to the following link like <http://localhost:5173/> . Now you are ready to go

```
VITE v4.3.9 ready in 657 ms
```

```
→ Local: http://localhost:5173/  
→ Network: use --host to expose  
→ press h to show help
```

**Step-05:** Here is the interface
